

ATA Spec 100 - Helicopter (Turboshaft)

ATA	Chapter	ATA	Chapter	ATA	Chapter	ATA	Chapter	ATA	Chapter		
<i>Aircraft General</i>		<i>Aircraft Systems</i>			<i>Structures</i>		<i>Powerplant System</i>		<i>Miscellaneous</i>		
00	Aircraft general	20	Standard practices - airframe	34	Navigation	51	Standard practices and structures - general	71	Power plant	88	Wiring Harnesses (2)
04	Airworthiness limitations	21	Air conditioning	35	Oxygen	52	Doors	72	Engine		
05	Time Limits / Maintenance Checks	22	Auto flight	36	Pneumatic	53	Fuselage	73	Engine - fuel and controls	91	Charts / Wiring
06	Dimensions and areas	23	Communications	38	Water / waste	55	Stabilizers	74	Ignition	97	Wiring reporting
07	Lifting and shoring	24	Electrical Power	39	Electrical - electronic panels & multipurpose components	56	Windows	75	Bleed air / Air		
08	Levelling and weighing	25	Equipment / Furnishings	40	Multisystem			76	Engine controls	<i>Military Chapters</i>	
09	Towing and taxiing	26	Fire Protection	42	Integrated modular avionics	<i>Rotor Systems</i>		77	Engine indicating	92	Electrical power multiplexing
10	Parking, mooring, storage; return to service	27	Flight Controls	43	Tactical Communication (2)	60	Standard practices - Rotor	78	Exhaust	93	Surveillance
11	Placards and marking	28	Fuel	44	Cabin systems	62	Main Rotor(s)	79	Oil	94	Weapon system
12	Servicing	29	Hydraulic Power	45	Central maintenance systems	63	Main Rotor Drive(s)	80	Starting	95	Crew escape and safety
13	Hardware and general tools	30	Ice and rain protection	46	Information systems	64	Tail Rotor			96	Missiles, drones and telemetry
15	Aircrew information	31	Indicating / recording systems	46	System integration and display (1)	65	Tail Rotor Drive	<i>Manufacturer specific</i> (1) Leonardo Helicopters (2) Airbus Helicopters		97	Image Recording (1)
16	Change of role	32	Landing gear	49	Airborne auxiliary power (APU)	66	Blade/Pylon folding			98	Meteorological and atmospheric research
18	Vibration and noise analysis	33	Lights			67	Rotors flight control			99	Electronic warfare system
